

#	Original game converted to, from or for game	Original game manufacturer	Model	CP # (if multiple)	Status	Notes
1	Aztarac	Centuri	upright		TBD	Bare metal + CPO. Hans has some of the other parts.
2	Black Widow	Atari	upright	1	Not for sale	Needed for my game.
3	Black Widow	Atari	upright	2	TBD	Hacked CP to include a track ball for Quantum and spinner for Major Havoc. Two 4" joysticks.
4	Cosmic Chasm	Cinematronics	upright	1	TBD	Spinner only. Need to keep best two.
5	Cosmic Chasm	Cinematronics	upright	2	TBD	Off game. Need to keep best two.
6	Cosmic Chasm	Cinematronics	upright	3	TBD	Hans repro, just bare plastic. I have the repro CPO too.
7	Cosmic Chasm	Cinematronics	upright	4	TBD	Hans repro, just bare plastic. I have the repro CPO too.
8	Indiana Jones And The Temple Of Doom	Atari	upright		Not for sale	Complete, all controls, wiring with connector (1 joystick bolt missing). Atari logo joystick self-centers, but not very tight. CPO very good. Extra dirt on CPO to right of joystick appears to be removable when scratching with my finger nails.
9	Kozmic Krooz'r	Bally/Midway	upright		TBD	Wiring looks complete, uncut with connectors. Joystick missing. Spinner and interface board present. Joystick present in joystick inventory box.
10	Marble Madness	Atari	upright		TBD	Complete with connector.

#	Original game converted to, from or for game	Original game manufacturer	Model	CP # (if multiple)	Status	Notes
11	Millipede	Atari	upright		TBD	Complete, all controls, wiring and connector. Track ball needs to be rebuilt. CPO good, but small piece torn away just to right of track ball. Track ball suitable for Quantum.
12	Missile Command	Atari	upright	1	TBD	Track ball complete with wiring. No CP wiring. Art on CP very good. Track ball needs new bearings and needs to be rebuilt. Price based on good CP art work and 5 Atari cone buttons. NOT FOR SALE AT THIS TIME.
13	Missile Command	Atari	upright	2	TBD	Track ball complete with wiring. CP wiring looks complete with connector. Art on CP very very good. Track ball needs new bearings and needs to be rebuilt. All cone buttons missing. Price based on good CP art work.
14	Missile Command	Atari	upright	3	TBD	Troy Akey repro.
15	Missile Command	Atari	cockpit		TBD	Missing track ball PCB present in box. Complete, excellent condition.
16	Peter Pack Rat	Atari	upright		Not for sale	Looks 100% complete with all controls, wiring and connector. CPO excellent.
17	Q*bert's Qubes	Gottlieb	upright		Not for sale	Looks 100% complete with all controls, wiring and connector. Can see the Q*bert CPO under it. CPO torn away about 5% at top above joystick. Joystick nice and tight and self centering.

#	Original game converted to, from or for game	Original game manufacturer	Model	CP # (if multiple)	Status	Notes
18	Quantum	Atari	upright	1	TBD	Three of the Quantum's are Hans' son's repros. The 4th is someone else's repro (need to check old emails to figure out who). Front glass retaining rails are also present. Repro CPO's present in my CPO storage.
19	Quantum	Atari	upright	2	TBD	Three of the Quantum's are Hans' son's repros. The 4th is someone else's repro (need to check old emails to figure out who). Front glass retaining rails are also present. Repro CPO's present in my CPO storage.
20	Quantum	Atari	upright	3	TBD	Three of the Quantum's are Hans' son's repros. The 4th is someone else's repro (need to check old emails to figure out who). Front glass retaining rails are also present. Repro CPO's present in my CPO storage.
21	Quantum	Atari	upright	4	TBD	Three of the Quantum's are Hans' son's repros. The 4th is someone else's repro (need to check old emails to figure out who). Front glass retaining rails are also present. Repro CPO's present in my CPO storage.
22	Road Blasters	Atari	upright		Not for sale	Looks 100% complete, all controls, interface, all wiring and connector. CPO is a little dirty but very nice. Steering self-centers.

#	Original game converted to, from or for game	Original game manufacturer	Model	CP # (if multiple)	Status	Notes
23	Road Runner	Atari	upright		Not for sale	Complete, with connector, excellent condition.
24	Robotron	Williams	upright		Not for sale	Complete with connector, prototype (notice weird joystick bottoms), excellent condition.
25	Star Wars	Atari	upright		Available for sale	Complete, all controls, wiring and connector. Flight controller almost but not quite self-centers. CPO dirty but very nice. Was taken off a working game, but no guarantees now.
26	Stargate	Williams	upright		TBD	Complete with connector. Excellent condition. Matte finish.
27	Tron	Bally/Midway	upright		Not for sale	Spot on spinner wheel is bent and will need to be fixed (should be able to be bent back). Wiring looks complete with connector, but there is at least one loose wire and other wiring has been cut and taped back together. Underside looks complete, but the spinner interface board is loose and may have damage. Buyer beware on this one. Price based mostly on joystick and spinner. No cracks in joystick.
28	Turkey Shoot	Williams	upright	1	TBD	Fizgig repro.
29	Turkey Shoot	Williams	upright	2	TBD	Missing buttons and wiring. Might be wrong gun.

#	Original game converted to, from or for game	Original game manufacturer	Model	CP # (if multiple)	Status	Notes
30	Wacko	Bally/Midway	upright	2	SOLD	Appears to be 100% complete with all wiring and connectors and interface boards. Both bat joysticks self-center and are tight. Track ball needs to be rebuilt. WARNING! This trackball uses custom size rollers. CPO pretty nice. Couple cig burns and nicks by start buttons, but otherwise, very nice.
